NOTES

- Even after students join our school when they are assessed by MTLGS over a period of time in some cases we may recommend to parents that they be placed in grade levels relevant to their actual levels and learning ability and not according to their age only.
- This will especially be applicable to students with handicaps or special needs as the need arises and the individual needs of each student will be taken into consideration before recommendations are made to parents.
- Regular assessments will be made during the year and each student's progress will be monitored carefully. If the need arises we could recommend to parents that a child repeat the year in the same grade level so as to get a better foundation before moving up to the next grade level.
